Description

All electric meter boxes must comply with:

ENATS 12-03 outdoor meter cupboards.
BS EN ISO ISO 9002

They must be fire retardant to E.S.I. Standard 12-3.

MATERIAL: 18% Glass; GRP BS 476 PART 7

Flush Fit (Built-In) Electric Meter Box (Figure 1)

The standard flush fitted electric meter box houses any domestic electric meter and is designed to mirror the standard built-in gas meter box. With customer choice of cable entry positions this universal version can be used in any area of the UK.

The box can be painted, if required, to blend in with the finishes of adjacent surfaces.

Surface Mounted (Bolt On) Electric Meter Box (Figure 2)

Used primarily for conversions where it is not appropriate to build into the wall.

The box can be painted, if required, to blend in with the finishes of adjacent surfaces.
